Work Hours as follows; Monday –Friday 6am to 2:30 pm with occasional overtime.

We are looking for a crew of efficient, safety-minded laborer's. We have long-term work available for the right candidate in a variety of positions. Applicants should have entry level construction experience and access to reliable transportation. Laborers with special skills, such as welding, electrical and carpentry, are in especially high demand. Laborers must also be able to concentrate on their tasks. The ability to understand and communicate information is a must. The ability to communicate in both English and Spanish can help to advance in company. The ideal candidates will be capable of working with minimal oversight but willing to follow directions closely. We offer a consistent work schedule, safe work environment and competitive pay. Additionally, prospective employee should be familiar with construction industry safety standards and procedures to ensure project security.
